PROFILE

Senior Frontend Developer with 7+ years of experience building and shipping production web and mobile applications for fintech, healthtech, and e-commerce clients. Specialized in React, React Native, and TypeScript, with strong full-stack grounding in Node.js, Laravel, and Java/Spring Boot. Proven track record delivering complete products from architecture through launch for international remote teams across the UK, Germany, Sweden, and France.

KEY SKILLS

Frontend: React JS, React Native, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, Tailwind CSS, Ant Design, Redux

Backend: Node.js, Laravel (RESTful APIs), PHP, Spring Boot (Java), Hibernate ORM, ASP.NET

Languages & OOP: Java, C++, C#, PHP

Databases: MySQL, SQL Server

Tools & Practices: Git, GitHub, Jira, Trello, Shortcut, Figma, Zeplin, Slack, Agile/Scrum

EXPERIENCE

Senior Frontend Developer — React Native / Expo

Feb 2025 – Aug 2025

Remote | Freelance

- Built the core architecture for a fintech mobile app from the ground up for crypto currency payments and cards, using React Native/Expo, Tailwind (NativeWind), and Figma.
- Integrated third-party services including Turnkey wallets and Onfido KYC to support secure onboarding and transactions.

Senior Frontend Developer

Aug 2022 – Nov 2024

Remote | Freelance / Part-time

- MadMed (Germany) — Aug 2022 – Jan 2023: Built a medical platform from scratch using React, TypeScript, and Figma with the latest tooling and best practices.
- Sweetspot (Sweden) — Sep 2023 – Aug 2024: Delivered new features, fixed bugs, and refreshed the UI across web and mobile apps using React Native, React, and TypeScript.
- Meilisearch (France) — Sep 2024 – Nov 2024: Built a search-review feature for a search engine platform using React, TypeScript, and Tailwind CSS.

Full Stack Web Developer / Frontend Team Lead

Apr 2021 – Present

Remote, Full-time

- Lead frontend development for a B2B2C, API-driven crypto-friendly financial services platform serving business and consumer clients.
- Own feature delivery, bug fixes, and enhancements across React Native (frontend), Spring Boot/Java and Express.js (backend), and Laravel (dashboard).
- Coordinate delivery using Jira, Figma, and Git within an Agile workflow.

Full Stack Web Developer

Sep 2020 – Apr 2021

Remote, Full-time

- Built and maintained a golf-player application using Ionic 3 (frontend), Laravel (backend), and React with Redux for the admin dashboard.
- Developed a custom WordPress theme for the company's main website.

Full Stack Web Developer

Jan 2019 – Oct 2020

Remote, Full-time

- Upgraded an internal ERP system using Java Spring Boot and Hibernate ORM, adding new features and modules on the AngularJS frontend.
- Built new features for an external customer-facing website using Node.js and Angular.
- Managed tasks and sprints in Jira following Agile practices.

Web Developer

Aug 2018 – Jan 2019

- Developed and maintained web pages and services for existing company systems using Node.js and ASP.NET.

Web Developer

Sep 2017 – Aug 2018

- Built full-stack features using PHP (CodeIgniter) and Bootstrap; developed a desktop application using C# Windows Forms.

Web Development Trainer

2016 – 2017

- Taught HTML, CSS, Bootstrap, Font Awesome, and PHP fundamentals to new developers.

Junior Developer

Nov 2016 – Jul 2017

- Worked with Spring MVC and Hibernate ORM against MySQL and SQL Server.

EDUCATION

Bachelor's Degree in Information Technology Engineering

Damascus University | 2013 – 2019

LANGUAGES

Arabic (Native) | English (Professional working proficiency)

ADDITIONAL SKILLS

- Strong team collaboration and cross-functional communication in distributed/remote teams
- Experienced presenting to small audiences and stakeholders
- Proficient in Photoshop and Microsoft Office
